“These face shields were designed to protect endoscopists during aerosol generating procedures by blocking direct droplet contamination of the facemask and face. They are durable, comfortable, and can be worn all day for patient care situations.”

Dr. Steven A. Edmundowicz FASGE
Medical Director
Digestive Health Center
University of Colorado Hospital

Guidelines for Cleaning:

**EVERYDAY CARE**
- **Use** liquid soap (without hand lotion)
- **Use** clean soft cloth or sponge.
